

Child Performance Regulations

As many of you already know, there are very strict rules in place regarding children performing in productions, and there are several things which we have to do to fulfil our responsibilities as a performing arts organisation working with children and young people.

Every time your child is involved in a production we have to apply to the council either for an exemption licence or a performing licence in order for them to be allowed to perform.

Each term you will need to complete a new registration form to keep our records up to date and also a medical declaration form which we will need in order to apply to the council for your child's exemption or performing licence.

Your child will **NOT BE ABLE TO PERFORM** if you do not complete these forms— this is the law and intended to protect your child.

Please ensure you have completed a *NEW* Registration Form *AND* Medical Declaration Form for this term!
